**Complex care
and comfort**

ABOUT US

Since 1996, MTL builds its brand and positive image on the stainless steel market. From the beginning, our activity has been concentrated on distribution of metallurgical materials made out of stainless, acid-resistant, and heat-resistant steel, as well as, aluminium. Currently, MTL The Home of Stainless Steel is one of the biggest, independent importers of metallurgical materials made of stainless steel in Poland. Thanks to our hard work and complex approach to each and every client we gained the trust of our clients, which lead to good reputation on the market. This can be seen in fourfold increase in our turnover with in the past 10 years.

Listening carefully to the needs of our clients allowed us to create an offer that matches their expectations. On the surface of more than 7000 m² you can find warehouse prepared for servicing clients from various industries. Our materials stored in warehouses located in Torun and Chorzow come entirely from reliable and trusted mills such as Acerinox, Aperam, Cogne, Hydro ALuminium etc. In both of our warehouses there is more than 1,5 thousand of materials including: long and short products,

welded and seamless tubes, fittings with various types of finishes of the surface; materials with different grades, such as, austenitic and heat-resistant steel, duplex, or superduplex.

In our offer we also have materials form aluminum, from noble stainless steel, PVD and tin colour coating and polished sheets, known as Mirror Face or Yacht type shine. Individual approach to every order is our biggest asset. We will undertake every unconventional, complicated and challenging order, so that our clients who come to our Home of Stainless Steel get exactly what they wish. Moreover, what we are able to offer to our customers is quick realisation, short deadlines, rapid transport and further services, such as, securing the surfaces of steel sheets with protective film, or cutting of long products.

As a business partner, our priority is to satisfy our client. That is why, we want to provide professional care, counselling, and sense of comfort to our every contractor since the first contact. We do everything in our power to let MTL The Home of Stainless Steel give its customers service with homelike atmosphere – understanding, guidance and confidence, all in pleasant environment.

For many years, the company has been appreciated by our business partners and featured in many various rankings, such as, e.g. Business Gazelles or Forbes Diamonds.

Our advantages:

- Individual approach to each and every client
- Realization of complicated, challenging and unconventional orders
- Fast completion of your order
- Most of the products are available/already in our warehouses

STAINLESS STEEL

COLD ROLLED SHEETS

- Grades: 1.4301, 1.4307, 1.4541, 1.4404, 1.4571, 1.4016, 1.4512, 1.4509, 1.4003
- Thickness: from 0,3 mm to 8 mm
- Dimensions: from 1000 × 2000 mm to 2000 × 6000 mm
- Cut to non-standard width and length
- One-side and both-side polished (80-400), scotch brite
- Surface: 2B, BA, super mirror No.8 (also two-sides)
- Tolerances according to PN-EN 10088-2 and PN-EN ISO 9445-2 norms

COLD ROLLED STRIPS AND COILS

- Grades: 1.4301, 1.4307, 1.4541, 1.4404, 1.4571, 1.4016, 1.4512, 1.4509, 1.4003, 1.4003
- Thickness from 0,3 mm to 3 mm (strips) and to 6 mm (coils)
- Precision strips (thickness from 0,06 mm)
- Surface 2B, BA, polished
- Tolerances according to PN-EN 10088, PN-EN ISO 9445-1 and PN-EN ISO 9445-2 norms

HOT ROLLED SHEETS AND PLATES

- Grades: 1.4301, 1.4307, 1.4541, 1.4404, 1.4571, 1.4016
- Thickness from 0,3 mm to 150 mm
- Dimensions from 1000 × 2000 to 2000 × 6000 mm; also 2500 mm and 3000 mm width possible
- Water, laser and plasma cutting, guillotining
- One-side and both-sides polished (80-400); also appropriate roughness possible to confirm (Ra) and super-mirror No.8 (thickness up to 15 mm)
- Surface: 1D and 2E
- Tolerances according to PN-EN 10088-2 and PN-EN ISO 10029 norms

TEAR PLATES

- Grades: 1.4301, 1.4404
- Thickness from 3 mm to 10 mm
- Dimensions from 1000 × 2000 to 1500 × 3000 mm; can be cut in non-standard length
- Tolerances according to DIN 59220 norm

PVD/TIN COLOUR COATING

- Pattern: linen, leather, rhomb, 5WL and others
- Perforated sheets (round and square perforation)
- Different colors available (gold, copper, black), different kind of surface, Antifingerprint coating

OTHER

- Grades: 1.4539, 1.4574, 1.4318, 1.4000, 1.4306, 1.4432, 1.4435, 1.4436
- Duplex (1.4462), Lean duplex (1.4162, 1.4362), Super duplex (1.4410)
- Heat-resistant: 1.4828, 1.4841, 1.4845, 1.4835, H25T, H13JS
- Titanium alloys
- Nickel alloys (e.g. alloy C-276, C-22, alloy 800 H)

WELDED TUBES / PIPES

- Grades: 1.4301, 1.4307, 1.4541, 1.4404, 1.4571
- Range of diameters: from 6 to 508 mm; other diameters available on request
- Finish: brushed, polished, ground, pickled
- Standard length – 6 m; other lengths available on request
- Manufactured according to EN 10217-7 norm (installation), EN10296-2 norm (construction) and EN 10357 norm (food industry); other available on request

BOX SECTIONS

- Grades: 1.4301, 1.4404, 1.4571
- Square and rectangular tubes
- Range of dimensions from 10 × 10 × 1 mm to 150 × 150 × 5 mm
- Dimensions from 150 × 150 × 5 mm and rectangular profiles available on request
- Standard length – 6 m; non-standard lengths available on request

ROUND BARS

- Grades: 1.4301, 1.4305, 1.4307, 1.4541, 1.4404, 1.4571, 1.4539, 1.4418, 1.4462, 1.4021, 1.4028, 1.4034, 1.4057, 1.4828, 1.4841, 1.4122
- Range of diameters: from 3 to 300 mm; other diameters available on request
- Cold-drawn (manufactured according to EN 10278), hot-rolled (EN 10060); forged
- Standard length: from 3 to 6 m; non-standard lengths available on request

SQUARE BARS

- Grades: 1.4301, 1.4305, 1.4404, 1.4571
- Range of dimensions: from 4 to 100 mm; non-standard lengths available on request
- Standard length: from 3 to 6 m; non-standard lengths available on request
- Cold-drawn (manufactured according to EN 10278), hot-rolled (according to EN 10059)

HEXAGONAL BARS

- Grades: 1.4301, 1.4305, 1.4307, 1.4541, 1.4404, 1.4571
- Range of diameters: from 7 to 65 mm; other diameters available on request
- Standard length: from 3 to 6 m; non-standard lengths available on request
- Cold-drawn (manufactured according to EN 10278)

FLAT BARS

- Grades: 1.4301, 1.4307, 1.4541, 1.4404, 1.4571, 1.4828, 1.4841
- Standard dimensions: from 20 × 3 mm to 100 × 10 mm; other dimensions on request
- Standard lengths: from 3 to 6 m; non-standard lengths available on request
- Finish: hot-rolled, cold-drawn, cut from plate

ANGLE BARS

- Grades: 1.4301, 1.4307, 1.4541, 1.4404, 1.4571
- Standard dimensions: from 20 × 20 × 3 mm to 100 × 100 × 10 mm
- Unequal bars and cold-bent bars - available on request
- Standard lengths: from 3 to 6 m; non-standard lengths available on request
- Hot-rolled (manufactured according to EN 10056)

STRUCTURALS

- Grades: 1.4301, 1.4307, 1.4404, 1.4571
- Different types: U-profiles, T-profiles, IPE beams
- Standard length: 6 m; non-standard lengths available on request
- Hot-rolled and welded
- Cold-bent U-channels and angle bars available on request

SEAMLESS TUBES / PIPES

- Grades: 1.4301, 1.4306, 1.4307, 1.4541, 1.4404, 1.4571, 1.4539, 1.4841
- Range of diameters: from 6 to 273 mm; other diameters on request
- Finish: pickled, polished, brights annealed
- Standard lengths from 4 to 7 m; other lengths available on request
- Manufactured according to EN 10216-5, EN 10305-1

FITTINGS

- Grades: 1.4301, 1.4307, 1.4541, 1.4404, 1.4571, 1.4539, 1.4462
- Different types: flanges (flat, blind welding-neck), elbows (seamless, welded), reducers, reducing and equal T-pieces
- Fittings are compatible with dimensions of pipes, manufactured according to EU standards

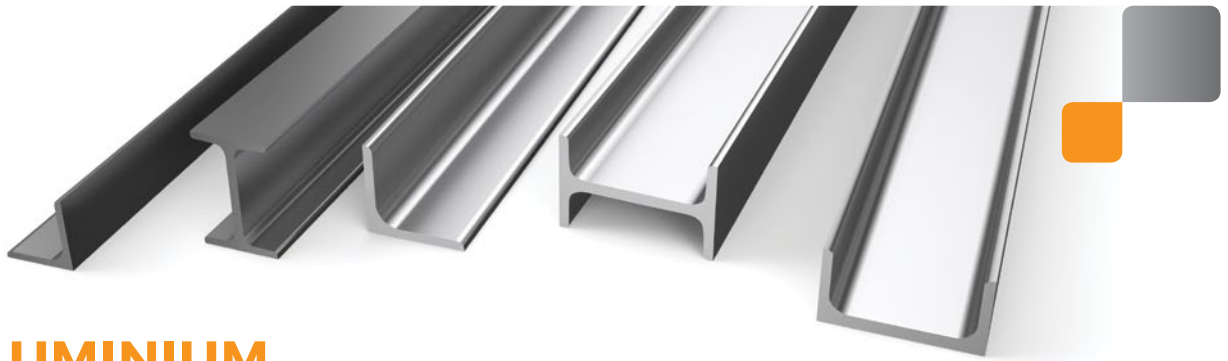

PVD / TiN COLOUR COATING

In Poland, we are Partner Company of DESIGNFACTORY GmbH, which is the leading producer of PVD / TiN coloured products made out of stainless steel.. We offer their products and services of the highest quality, such as:

- Polishing of sheets and long products (round tubes, flat bars, round bars). The Surface gets Mirror Face and Yacht type of shine. As a result, it gains consistent shine, comparable with the mirror. Both of the surfaces reach the highest quality standards;
- Hydroblasting – glass-bead, ceramic-bead, high-grade corundum;
- PVD/TiN coloured sheets, colouring on various surfaces. They are characterized by exceptionally high resistance to corrosion. Moreover, colours are exceptionally durable and regular on the entire surface;
- Polishing and brushing – different grains and roughness possible, criss-cross and diagonal polishing, one and both sides, as well;
- Sheets and Antifingerprint surface (Easy2Clean) – coating that protects against finger prints and stains. Moreover, it is UV and deformative resistant;
- 3D deformed plates.

ALUMINIUM

FLAT SHEETS

- Grades: 1050 A, 5754; other available on request
- Standard thickness: from 0,8 do 10 mm
- Standard dimensions of the sheets: 1000 × 2000, 1250 × 2500, 1500 × 3000 mm
- Finish: H14/H24, H111, H22
- Non-standard thickness, dimensions and finish available on request

TREAD SHEETS

- Grades: 1050A, 5754
- Standard thickness: from 2 to 5 mm
- Standard dimensions: 1000 × 2000, 1250 × 2500, 1500 × 3000 mm
- Finish: H244, H114
- Standard pattern: quintett (duet on request)
- Non-standard thickness, dimensions and finish available on request

ANGLE BARS, FLAT BARS, PROFILES

- Standard grades: 6060, 6082, 2007, 2017
- Standard length: 6 m
- Non-standard thickness, dimensions and grades available on request

BARS

- Standard grades: 2007, 2017, 6060, 6082, 7075
- Round, square, hexagonal
- Standard diameters: from 10 to 250 mm
- Standard length: 3-6 m
- Non-standard thickness, dimensions and grades available on request

TUBES

- Standard grades: 2007, 6060, 6082
- Round, square and rectangular
- Standard length: 6 m
- Non-standard thickness, dimensions and grades available on request
